Make use of our technical support for special cabinet designs

GR

für Glas-Schiebetüren mit Alu-Rahmenprofil

pour portes en verre coulissantes à cadre

for framed glass sliding doors

H

für Holz-Schiebtüren

pour portes en bois coulissantes

for wooden sliding doors

Wichtige Montagehinweise:

Laufschiene inwendig reinigen. Stopper vor der Schienenmontage einsetzen. Stopper müssen oben und unten gleichzeitig anschlagen. Nach der Höhenjustierung alle Vorbefestigungsschrauben festziehen und alle zusätzlichen Sicherungsschrauben anbringen.

Important:

Nettoyer l'intérieur du rail de roulement. Mettre les butées avant de monter le rail. Le contact des butées doit être simultané en haut et en bas. Après avoir ajusté la hauteur, serrer toutes les vis de fixation et mettre toutes les vis de blocage supplémentaire.

Important notes for mounting:

Always clean inside of tracks. Stoppers to be inserted before mounting of the track. Top and bottom stoppers must be hit at the same time. After height adjustment is completed tighten up all temporarily fixed screws and fit all additional securing screws.
